

WHERE WE ARE OUR DSRIP ACTIVITIES TO-DATE

PREFACE

The Westchester Medical Center-led PPS network has identified six goals that align with New York State's DSRIP program:

1. Create an integrated delivery system.
2. Decrease hospitalizations and ED visits.
3. Transform behavioral health and physical care delivery services.
4. Establish robust information exchange between providers.
5. Improve health of Medicaid and uninsured populations.
6. Move to a value-based contracting model.

OUR PPS

Partners in our network will collaborate on DSRIP projects to transform healthcare delivery services in the Hudson Valley region.

COMMUNITY NEEDS ASSESSMENT (CNA)

Seven of the nine high-needs zip codes we identified in the region were federally designated Medically Underserved Areas (MUA).

DSRIP PROJECTS

Our PPS has identified the eleven DSRIP projects we will engage in.

COMMITTEES + WORKGROUPS

Committees and Workgroups will provide governance, counsel, develop clinical protocols and best practices on DSRIP projects.

PROJECT APPLICATION

Submitted application to NYS in Dec. 2014

DSRIP YEAR 1

April 2015:
DSRIP Year 1 began.
