

Strength Based Community Engagement Training

Program Description: This interactive and culturally inclusive training will provide front-line health care, social and service community-based staff with the tools to work with communities through a strength-based lens. This means that will examine the strengths and survival skills inherent in all communities. We will create strategies to partner with our priority communities to improve health outcomes and create resilient communities.

Mission of In Our Own Voices: To work for and ensure the physical, mental, spiritual, political, cultural and economic survival and growth of the lesbian, gay, bisexual and transgender people of color communities. We offer training and technical assistance for human service programs that work throughout the community.

Date: May 3rd 2018
