

Westchester
MEDICAL CENTER
CENTER FOR REGIONAL
HEALTHCARE INNOVATION

Part of the DSRIP *collaborative Community Needs Assessment included a component that identified health care resources throughout the region in which Performing Provider Systems (PPS) will have a presence. The attached workbook includes health care service providers in Rockland County, New York and covers specialties such as:

- Ambulatory surgical centers
- Assisted living providers
- Behavioral health resources
- Health homes and health centers
- Home care service providers
- Hospitals
- Laboratory and radiology service providers
- Pharmacies
- Rehabilitation service providers
- Skilled nursing homes
- Specialty medical and developmental disability service providers
- Urgent care providers
- Vision care service providers

To learn more about the community needs assessment, this workbook or how social, economic or community-related resources will impact the Westchester Medical Center PPS' participation in DSRIP projects, please contact:

Deborah Viola, PhD
Vice President
Director, Health Services Research & Data Analytics
Center for Regional Healthcare Innovation

doant@wcmc.com | 914.326.4207

Visit www.crh-ny.org to learn more about the Westchester Medical Center Performing Provider System (PPS).

*The community needs assessment was a collaborative effort between the Montefiore Hudson Valley Collaborative, Refuah Health Center and Westchester Medical Center.

HEALTH CARE RESOURCES WORKBOOK FOR ROCKLAND COUNTY, NEW YORK

Purpose: This workbook is intended to serve as a resource guide of health care organizations and providers located within the Hudson Valley.

Description: Included in this work book are the listings of health care resources in the county. The categories are described and listed alphabetically.

AMBULATORY SURGICAL CENTERS (ASCs)

These are medical facilities specializing in elective same-day or outpatient surgical procedures. Patients treated in these facilities are not required to be admitted to the hospital and usually are well enough to leave after the procedure. ASCs can perform a wide range of procedures, including but not limited to ophthalmology (eye), gastroenterology, orthopedic, otolaryngology (ear), gynecology, dental, urological, neurological, podiatric, and plastic surgery, etc.

AREA HEALTH EDUCATION CENTERS (AHECs)

These are non-profit organizations aiming to provide health service learning opportunities and improve the education and training of health professionals, primarily primary care providers, in rural or underserved communities. Trainees include medical, dental, physician assistants, nursing, pharmacy, and allied health. One of AHECs' missions is to invest and increase diversity in future healthcare workforce and therefore AHECs routinely make outreach efforts available for K-12 students through health career camps, science enrichment programs, health careers programs, etc., specifically targeting minority /underrepresented groups.

Catskill Hudson Area Health Education Center	598 Route 299 Highland, NY 12528	845-883-7260	http://www.chahec.org/

ASSISTED LIVING FACILITIES (ALFs)

These facilities are a great housing alternative for older adults that need some assistance with daily personal care, such as dressing, bathing, eating, and toileting, but do not need the round-the-clock medical and nursing care of a nursing home. These facilities may stand alone, a part of a senior housing complex or retirement community. Common services found in these facilities include healthcare management and monitoring, transportation, assistance with daily activities, medication reminders, recreational activities, etc.

FEDERALLY QUALIFIED HEALTH CENTERS (FQHC)

A type of safety-net health care provider, FQHCs are federally funded, nonprofit health centers or clinics that served medically underserved areas and populations through a special Public Health Service funding mechanism from the Centers for Medicare and Medicaid Services. FQHCs provide primary care services regardless of the patient's ability to pay. Services are also provided based on a sliding scale fee based on the patient's ability to pay.

HEALTH HOMES

A Health Home is a Medicaid health care management service model for those living with multiple health chronic conditions, including mental health, substance use disorders, and HIV. The home builds community support and care coordination with a team approach among the individual's caregivers (the patient, his/her healthcare providers, family members, etc.). Health homes especially focus on the integration of primary and behavioral health care to better meet the patient's needs.

MANAGED CARE ORGANIZATIONS (MCOs)

MCOs are organizations that combine the functions of health insurance, delivery of care, and administration. The focus of MCOs is to deliver high quality health care to members at affordable rates by controlling the costs of these services through the utilization of appropriate health care professional when care is medically necessary. A Health Maintenance Organization (HMO) is an example of a MCO.

REHABILITATIVE SERVICES

These are services designed to facilitate the process of recovery from injury, illness, or disease and restore various physical functioning to as normal as possible. Rehabilitation services assist the patient to compensate for deficits that cannot be treated medically. Some of these services include physical therapy, occupational therapy, and speech therapy. Other types of therapists, such as inhalation, audiologists, and dietitians may also be part of the professional team as needed. While some therapists do make home visits, most of these services take place in various health care facilities, such as hospitals, clinical office practices, skill-care nursing homes, and sport medicine clinics.

ACCESS Physical Therapy & Wellness	14 Thiells Mt. Ivy Road #2 Pomona, NY 10970	845-470-2070	http://accessptw.com/

SKILLED NURSING HOMES

These are living facilities for seniors with health services provided by a team of health professionals under the supervision and oversight of a Medical Director. The clinical team includes medical doctors, licensed practical, vocational, and skilled and registered nurses, as well as rehabilitative staff, to manage, provide, observe, and evaluate care. Unlike a nursing home, a skilled nursing home must be certified by the Centers of Medicare and Medicaid, which pay for these services. In addition, these facilities are strictly regulated by the US Department of Health.

SPECIALTY MEDICAL AND DEVELOPMENTAL DISABILITY SERVICES

These are services provided to those living with medical or developmental disabilities which could be severe, chronic ailments caused by mental or physical impairments. The goal of these specialty services is to achieve optimal physical, mental, and social health for the patients through treatment and support. For children and adolescents, these services address needs such as self-care, language, learning mobility, and self-direction. For adults, the services assist with their independent living and economic self-sufficiency. Case management, early intervention, comprehensive medical and neurological evaluations, psychological services and therapy, substance abuse counseling, workshops, job trainings, and educational programs are some of the examples of these services.

URGENT CARE CENTERS

Urgent Care centers are set up to assist patients with the provision of immediate outpatient medical services for the treatment of acute or chronic illnesses or injuries that are not life-threatening but also cannot wait until the next day or for the primary care physician to see them. Visiting an urgent care center is a convenient and economical option if care is needed outside of the doctor's regular office hours, and if use appropriately, can be a good alternative to waiting for hours in a hospital emergency room. Some common treatments provided by urgent care centers include office-based laboratory tests, diabetes management, symptoms of the common colds/flu, and common infections (conjunctivitis (pink-eye), streptococcus (throat), urinary tract, etc.).

HEALTH CARE RESOURCE LISTINGS FOR

ROCKLAND COUNTY, NEW YORK

Purpose: This workbook is intended to serve as a resource guide of health care organizations and providers located within the Hudson Valley.

Description: Included in this work book are the listings of health care resources in the county. The categories are described and listed alphabetically.

AMBULATORY SURGICAL CENTERS (ASCs)

These are medical facilities specializing in elective same-day or outpatient surgical procedures. Patients treated in these facilities are not required to be admitted to the hospital and usually are well enough to leave after the procedure. ASCs can perform a wide range of procedures, including but not limited to ophthalmology (eye), gastroenterology, orthopedic, otolaryngology (ear), gynecology, dental, urological, neurological, podiatric, and plastic surgery, etc.

AREA HEALTH EDUCATION CENTERS (AHEC's)

These are non-profit organizations aiming to provide health service learning opportunities and improve the education and training of health professionals, primarily primary care providers, in rural or underserved communities. Trainees include medical, dental, physician assistants, nursing, pharmacy, and allied health. One of AHECs' missions is to invest and increase diversity in future healthcare workforce and therefore AHECs routinely make outreach efforts available for K-12 students through health career camps, science enrichment programs, health careers programs, etc., specifically targeting minority /underrepresented groups.

Catskill Hudson Area Health Education Center	598 Route 299 Highland, NY 12528	845-883-7260	http://www.chahec.org/

ASSISTED LIVING FACILITIES(ALFs)

These facilities are a great housing alternative for older adults that need some assistance with daily personal care, such as dressing, bathing, eating, and toileting, but do not need the round-the-clock medical and nursing care of a nursing home. These facilities may stand alone, a part of a senior housing complex or retirement community. Common services found in these facilities include healthcare management and monitoring, transportation, assistance with daily activities, medication reminders, recreational activities, etc.

FEDERALLY QUALIFIED HEALTH CENTERS [FQHC]

A type of safety-net health care provider, FQHCs are federally funded, nonprofit health centers or clinics that served medically underserved areas and populations through a special Public Health Service funding mechanism from the Centers for Medicare and Medicaid Services. FQHCs provide primary care services regardless of the patient's ability to pay. Services are also provided based on a sliding scale fee based on the patient's ability to pay.

HEALTH HOMES

A Health Home is a Medicaid health care management service model for those living with multiple health chronic conditions, including mental health, substance use disorders, and HIV. The home builds community support and care coordination with a team approach among the individual's caregivers (the patient, his/her healthcare providers, family members, etc.). Health homes especially focus on the integration of primary and behavioral health care to better meet the patient's needs.

MANAGED CARE ORGANIZATIONS [MCOs]

MCOs are organizations that combine the functions of health insurance, delivery of care, and administration. The focus of MCOs is to deliver high quality health care to members at affordable rates by controlling the costs of these services through the utilization of appropriate health care professional when care is medically necessary. A Health Maintenance Organization (HMO) is an example of a MCO.

REHABILITATIVE SERVICES

These are services designed to facilitate the process of recovery from injury, illness, or disease and restore various physical functioning to as normal as possible. Rehabilitation services assist the patient to compensate for deficits that cannot be treated medically. Some of these services include physical therapy, occupational therapy, and speech therapy. Other types of therapists, such as inhalation, audiologists, and dietitians may also be part of the professional team as needed. While some therapists do make home visits, most of these services take place in various health care facilities, such as hospitals, clinical office practices, skill-care nursing homes, and sport medicine clinics.

SKILLED NURSING HOMES

These are living facilities for seniors with health services provided by a team of health professionals under the supervision and oversight of a Medical Director. The clinical team includes medical doctors, licensed practical, vocational, and skilled and registered nurses, as well as rehabilitative staff, to manage, provide, observe, and evaluate care. Unlike a nursing home, a skilled nursing home must be certified by the Centers of Medicare and Medicaid, which pay for these services. In addition, these facilities are strictly regulated by the US Department of Health.

SPECIALTY MEDICAL AND DEVELOPMENTAL DISABILITY SERVICES

These are services provided to those living with medical or developmental disabilities which could be severe, chronic ailments caused by mental or physical impairments. The goal of these specialty services is to achieve optimal physical, mental, and social health for the patients through treatment and support. For children and adolescents, these services address needs such as self-care, language, learning mobility, and self-direction. For adults, the services assist with their independent living and economic self-sufficiency. Case management, early intervention, comprehensive medical and neurological evaluations, psychological services and therapy, substance abuse counseling, workshops, job trainings, and educational programs are some of the examples of these services.

URGENT CARE CENTERS

Urgent Care centers are set up to assist patients with the provision of immediate outpatient medical services for the treatment of acute or chronic illnesses or injuries that are not life-threatening but also cannot wait until the next day or for the primary care physician to see them. Visiting an urgent care center is a convenient and economical option if care is needed outside of the doctor's regular office hours, and if use appropriately, can be a good alternative to waiting for hours in a hospital emergency room. Some common treatments provided by urgent care centers include office-based laboratory tests, diabetes management, symptoms of the common colds/flu, and common infections (conjunctivitis (pink-eye), streptococcus (throat), urinary tract, etc.).
